The John Crosland School uses Financial Aid for School Tuition (FAST) as a guideline for determining the need of families for tuition assistance. FAST operates a central processing system for computing family contribution for educational expenses. The John Crosland School is then provided with information and guidelines for making tuition assistance awards fairly and equitably on the basis of need.

Assistance is offered without regard to sex, race, color, nationality, religion, or ethnic origin. Financial information is held in strictest confidence. A family's need for tuition assistance is re-evaluated each year.

To apply, please go to: www.JohnCroslandSchool.org, under the Admissions/Tuition Assistance pages.
